IXL Skill Alignment

Integrated I alignment for Reveal Math

Use IXL's interactive skill plan to get up-to-date skill alignments, assign skills to your students, and track progress.

www.ixl.com/math/skill-plans/reveal-math-2020-integrated-i

This document includes the IXL® skill alignments to McGraw Hill's Reveal Math curriculum. IXL provides skill alignments as a service to teachers, students, and parents. The skill alignments are provided by IXL and are not affiliated with, sponsored by, reviewed, approved or endorsed by McGraw Hill or any other third party. Module 1

Expressions

Textbook section	IXL skills
Lesson 1-1: Numerical Expressions	1. Write numerical expressions WTE 2. Evaluate numerical expressions involving integers ZFX 3. Write numerical expressions for word problems DXD *Also consider* • Evaluate expressions using exponent rules LRR • Evaluate numerical expressions involving rational numbers 8CU
Lesson 1-2: Algebraic Expressions	1. Write variable expressions D7K 2. Evaluate variable expressions involving integers AZT 3. Write variable expressions: word problems 8UK
Lesson 1-3: Properties of Real Numbers	1. Properties of addition and multiplication TQS *Also consider* • Properties of equality H8Q • Evaluate variable expressions involving rational numbers M9A
Lesson 1-4: Distributive Property	1. Distributive property BHL 2. Simplify linear expressions using properties HHR 3. Simplify variable expressions involving like terms and the distributive property ZXX
Lesson 1-5: Expressions Involving Absolute Value	1. Evaluate absolute value expressions 2KN *Also consider* • Absolute value and opposites KGR

© 2026 IXL Learning. Visit IXL.com today!

Lesson 1-6: Descriptive Modeling and Accuracy

1. Word problems: mixed review Z7P

Also consider

- Precision QK9

Module 2

Equations in One Variable

Textbook section	IXL skills
Lesson 2-1: Writing and Interpreting Equations	1. Write variable equations YVW
Lesson 2-2: Solving One-Step Equations	1. Model and solve one-step equations using algebra tiles JXT 2. Solve one-step linear equations TXJ 3. Solve one-step linear equations: word problems UXX
Lesson 2-3: Solving Multi-Step Equations	1. Model and solve linear equations using algebra tiles GRH 2. Solve two-step linear equations QAK 3. Solve one-step and two-step linear equations: word problems UFG *Also consider* • Solve linear equations with variables on one side 28N
Lesson 2-4: Solving Equations with the Variable on Each Side	1. Solve linear equations with variables on both sides 7S7 2. Solve linear equations with variables on both sides: word problems H9G 3. Find the number of solutions to a linear equation KBP *Also consider* • Solve linear equations: mixed review DN6 • Create linear equations with no solutions or infinitely many solutions PUK • Solve linear equations: complete the solution EVP
Lesson 2-5: Solving Equations Involving Absolute Value	1. Solve absolute value equations 9LF 2. Graph solutions to absolute value equations KXA

Visit IXL's interactive skill plan at www.ixl.com/math/skill-plans/reveal-math-2020-integrated-i

© 2026 IXL Learning. Visit IXL.com today!

	Also consider • Write absolute value equations from graphs BXF
Lesson 2-6: Solving Proportions	1. Solve proportions 2ZL 2. Weighted averages: word problems 2TQ *Also consider* • Solve proportions: word problems 8ES • Rate of travel: word problems 2C8
Lesson 2-7: Using Formulas	1. Rearrange multi-variable equations WSJ 2. Multi-step problems with unit conversions EHV

© 2026 IXL Learning. Visit IXL.com today!

Module 3

Relations and Functions

Textbook section	IXL skills
Lesson 3-1: Representing Relations	1. Relations: convert between tables, graphs, mappings, and lists of points RBG 2. Domain and range of relations 2CG 3. Identify graphs: word problems AB9 *Also consider* • Identify independent and dependent variables N55
Lesson 3-2: Functions	1. Identify functions VLL 2. Evaluate a function JFB 3. Interpret functions using everyday language U98 *Also consider* • Identify functions: vertical line test HLX
Lesson 3-3: Linearity and Continuity of Graphs	1. Identify linear functions from graphs and equations VMQ 2. Identify linear functions from tables F5G
Lesson 3-4: Intercepts of Graphs	
Lesson 3-5: Shapes of Graphs	
Lesson 3-6: Sketching Graphs and Comparing Functions	1. Find values using function graphs QCG *Also consider* • Domain and range of linear functions: word problems AW7
Checkpoint opportunity	1. Checkpoint: Function concepts HBK 2. Checkpoint: Units and quantities CBX

Module 4

Linear and Nonlinear Functions

Textbook section	IXL skills
Lesson 4-1: Graphing Linear Functions	1. Graph a linear function 2ZW 2. Standard form: graph a line from an equation U6U 3. Graph a horizontal or vertical line BTK *Also consider* • Standard form: find x- and y-intercepts 8SN
Lesson 4-2: Rate of Change and Slope	1. Identify linear functions from tables F5G 2. Find the slope from two points MD5 3. Find the slope from a table GUP *Also consider* • Find the slope of a graph E7D • Find a missing coordinate using slope 5C7 • Rate of change: tables PLA • Rate of change: graphs BNH
Lesson 4-3: Slope-Intercept Form	1. Write a linear equation from a slope and y-intercept 8X5 2. Linear equations in standard form: solve for y VQB 3. Slope-intercept form: graph an equation UWB *Also consider* • Equations of horizontal and vertical lines K8H • Interpret the slope and y-intercept of a linear function RPQ
Lesson 4-4: Transformations of Linear Functions	1. Transformations of linear functions C8G 2. Describe linear transformations HPC *Also consider* • Compare linear functions: tables, graphs, and equations GD7

© 2026 IXL Learning. Visit IXL.com today!

Lesson 4-5: Arithmetic Sequences	1. Arithmetic sequences ALG 2. Write variable expressions for arithmetic sequences 5VF
Lesson 4-6: Piecewise and Step Functions	1. Graph piecewise-defined functions 86G *Also consider* • Evaluate piecewise-defined functions 86S
Lesson 4-7: Absolute Value Functions	1. Graph an absolute value function TD2 2. Transformations of absolute value functions: translations, reflections, and dilations QVW *Also consider* • Complete a function table: absolute value functions 2DH • Domain and range of absolute value functions: graphs NV7 • Domain and range of absolute value functions: equations FCY

Module 5

Creating Linear Equations

Textbook section	IXL skills
Lesson 5-1: Writing Equations in Slope-Intercept Form	1. Write a linear equation from a slope and a point YMZ 2. Write a linear equation from two points VKL 3. Write a linear function: word problems HWM *Also consider* • Slope-intercept form: write an equation from a graph 9GW • Slope-intercept form: write an equation from a table SSE
Lesson 5-2: Writing Equations in Standard and Point-Slope Forms	1. Point-slope form: write an equation PPE 2. Write linear equations in standard form ESP 3. Write an equation for a parallel or perpendicular line 5SH *Also consider* • Linear equations: solve for y T5F • Slopes of parallel and perpendicular lines ADB • Point-slope form: graph an equation F8H • Point-slope form: write an equation from a graph LBX
Lesson 5-3: Scatter Plots and Lines of Fit	1. Interpret a scatter plot 8BS 2. Write equations for lines of best fit Y2S *Also consider* • Outliers in scatter plots EG5 • Interpret lines of best fit: word problems AF2
Lesson 5-4: Correlation and Causation	1. Correlation and causation KPG
Lesson 5-5: Linear Regression	1. Calculate correlation coefficients E8T 2. Analyze a regression line of a data set 8D8

Visit IXL's interactive skill plan at www.ixl.com/math/skill-plans/reveal-math-2020-integrated-i

© 2026 IXL Learning. Visit IXL.com today!

	Also consider • Match correlation coefficients to scatter plots FQ7
Lesson 5-6: Inverses of Linear Functions	1. Find the inverse of a linear function VME 2. Find values of inverse functions from tables U5E 3. Find values of inverse functions from graphs 7HN
Checkpoint opportunity	1. Checkpoint: Linear modeling U7N

© 2026 IXL Learning. Visit IXL.com today!

Module 6

Linear Inequalities

Textbook section	IXL skills
Lesson 6-1: Solving One-Step Inequalities	1. Write inequalities from graphs SEK 2. Solve one-step linear inequalities EEX 3. Graph solutions to one-step linear inequalities E2Z *Also consider* • Graph inequalities H68 • Solve one-step linear inequalities: addition and subtraction RZV • Solve one-step linear inequalities: multiplication and division BRJ • Set-builder notation HMC
Lesson 6-2: Solving Multi-Step Inequalities	1. Solve multi-step linear inequalities 9K8 2. Graph solutions to multi-step linear inequalities 5GC *Also consider* • Solve two-step linear inequalities NPZ • Graph solutions to two-step linear inequalities XVM
Lesson 6-3: Solving Compound Inequalities	1. Solve compound inequalities GXA 2. Write compound inequalities from graphs 6UV 3. Graph solutions to compound inequalities LHX *Also consider* • Graph compound inequalities BQX
Lesson 6-4: Solving Absolute Value Inequalities	1. Solve absolute value inequalities HXH 2. Graph solutions to absolute value inequalities NE9

© 2026 IXL Learning. Visit IXL.com today!

Lesson 6-5: Graphing Inequalities in Two Variables	1. Linear inequalities: solve for y UYU 2. Graph a two-variable linear inequality HHP 3. Write two-variable inequalities: word problems ZAY *Also consider* • Does (x, y) satisfy the inequality? N9L • Write a linear inequality from a graph N9W
Checkpoint opportunity	1. Checkpoint: Solve linear equations and inequalities VYL

© 2026 IXL Learning. Visit IXL.com today!

Module 7

Systems of Linear Equations and Inequalities

Textbook section	IXL skills
Lesson 7-1: Graphing Systems of Equations	1. Solve a system of equations by graphing TSS 2. Classify a system of equations by graphing T2D 3. Solve a system of equations by graphing: word problems BVB *Also consider* • Is (x, y) a solution to the system of equations? LRL • Find the number of solutions to a system of equations by graphing HJW
Lesson 7-2: Substitution	1. Solve a system of equations using substitution 8P9 2. Solve a system of equations using substitution: word problems US9 *Also consider* • Find the number of solutions to a system of equations ACN
Lesson 7-3: Elimination Using Addition and Subtraction	1. Solve a system of equations by adding or subtracting RMJ *Also consider* • Classify a system of equations LTA
Lesson 7-4: Elimination Using Multiplication	1. Solve a system of equations using elimination A48 2. Solve a system of equations using elimination: word problems NHR *Also consider* • Solve a system of equations using any method HLV • Solve a system of equations using any method: word problems GDQ

© 2026 IXL Learning. Visit IXL.com today!

Lesson 7-5: Systems of Inequalities	1. Is (x, y) a solution to the system of linear inequalities? VFC 2. Solve systems of linear inequalities by graphing SGH
Checkpoint opportunity	**Module 7** 1. Checkpoint: Systems of equations and inequalities LQW **Modules 1–7** 2. Checkpoint: Modeling with linear equations and inequalities 2VV

© 2026 IXL Learning. Visit IXL.com today!

Module 8

Exponential Functions

Textbook section	IXL skills
Lesson 8-1: Exponential Functions	1. Identify linear and exponential functions from graphs and tables 8N3 2. Domain and range of exponential functions LXE 3. Graph exponential functions 5QL *Also consider* • Describe linear and exponential growth and decay S7T • Compare linear and exponential growth YSZ
Lesson 8-2: Transformations of Exponential Functions	1. Match exponential functions and graphs II 72J 2. Match exponential functions and graphs I BYF *Also consider* • Function transformation rules ZEG
Lesson 8-3: Writing Exponential Functions	1. Write exponential functions: word problems LZW 2. Compound interest: word problems QSF *Also consider* • Write linear and exponential functions from tables JGJ • Write linear and exponential functions: word problems T84
Lesson 8-4: Transforming Exponential Expressions	1. Exponential growth and decay: word problems UKG
Lesson 8-5: Geometric Sequences	1. Geometric sequences HLJ 2. Write variable expressions for geometric sequences XPC *Also consider* • Identify arithmetic and geometric sequences X76

© 2026 IXL Learning. Visit IXL.com today!

Lesson 8-6: Recursive Formulas

1. Evaluate recursive formulas for sequences 9YD
2. Write a formula for a recursive sequence KP9

Also consider

- Convert a recursive formula to an explicit formula ZBQ
- Convert an explicit formula to a recursive formula 42Y
- Identify a sequence as explicit or recursive Y9B

Checkpoint opportunity

Modules 1–8

1. Checkpoint: Sequences 5W7
2. Checkpoint: Compare linear and exponential functions KSL
3. Checkpoint: Graph and interpret functions 9QV
4. Checkpoint: Average rate of change DUS
5. Checkpoint: Build functions XF6
6. Checkpoint: Expressions, equations, and inequalities QS2
7. Checkpoint: Solve equations using graphs and tables 8JR

© 2026 IXL Learning. Visit IXL.com today!

Module 9

Statistics

Textbook section	IXL skills
Lesson 9-1: Measures of Center	1. Mean, median, and mode 7E3
Lesson 9-2: Representing Data	1. Create line plots N2E 2. Create histograms WZU 3. Create bar graphs TBC *Also consider* • Interpret line plots PXN • Interpret histograms 2QR
Lesson 9-3: Using Data	1. Identify biased samples F6N *Also consider* • Identify an outlier 87L
Lesson 9-4: Measures of Spread	1. Calculate quartiles and interquartile range 8H9 2. Box plots YE9 3. Standard deviation of a population HX5
Lesson 9-5: Distributions of Data	1. Identify an outlier and describe the effect of removing it XGC 2. Choose appropriate measures of center and variation MHC
Lesson 9-6: Comparing Sets of Data	
Lesson 9-7: Summarizing Categorical Data	1. Create and interpret two-way frequency tables 85J 2. Find conditional probabilities using two-way frequency tables BZZ
Lesson 9-8: Normal Distributions	

© 2026 IXL Learning. Visit IXL.com today!

Checkpoint opportunity

1. Checkpoint: Line plots, histograms, and box plots UVL
2. Checkpoint: Compare data sets DJA
3. Checkpoint: Two-way frequency tables 5GL

© 2026 IXL Learning. Visit IXL.com today!

Module 10

Tools of Geometry

Textbook section	IXL skills
Lesson 10-1: The Geometric System	
Lesson 10-2: Points, Lines, and Planes	1. Properties of planes, lines, and points SVU *Also consider* • Describe intersections in a plane BD6
Lesson 10-3: Line Segments	1. Additive property of length 7RA *Also consider* • Construct a congruent segment LRJ
Lesson 10-4: Distance	1. Lengths of segments on number lines JSD 2. Congruent line segments 6W6 3. Distance formula 59F
Lesson 10-5: Locating Points on a Number Line	
Lesson 10-6: Locating Points on a Coordinate Plane	1. Partition a line segment in a given ratio J42
Lesson 10-7: Midpoints and Bisectors	1. Midpoints 7RH 2. Midpoint formula: find the midpoint 2YG 3. Midpoint formula: find the endpoint EUW *Also consider* • Construct the midpoint or perpendicular bisector of a segment HDT
Checkpoint opportunity	1. Checkpoint: Partition a line segment U7H

© 2026 IXL Learning. Visit IXL.com today!

Module 11

Angles and Geometric Figures

Textbook section	IXL skills
Lesson 11-1: Angles and Congruence	1. Angle vocabulary 9U2 2. Identify vertical, adjacent, and congruent angles LLM 3. Find measures of vertical and adjacent angles 9AN *Also consider* • Angle measures BCQ • Find lengths and measures of bisected line segments and angles YQW • Construct a congruent angle F7V • Construct an angle bisector FHL
Lesson 11-2: Angle Relationships	1. Identify complementary and supplementary angles 97A 2. Find measures of complementary and supplementary angles GV5 *Also consider* • Identify complementary, supplementary, vertical, adjacent, and congruent angles 7P7 • Find measures of complementary, supplementary, vertical, and adjacent angles VZU • Angle diagrams: solve for the variable AKB • Construct a perpendicular line BZR
Lesson 11-3: Two-Dimensional Figures	1. Area and perimeter in the coordinate plane I QWZ 2. Area and perimeter in the coordinate plane II MHQ *Also consider* • Polygon vocabulary KHQ • Area and circumference of circles ZDX • Area of compound figures KHG

Visit IXL's interactive skill plan at www.ixl.com/math/skill-plans/reveal-math-2020-integrated-i

© 2026 IXL Learning. Visit IXL.com today!

Lesson 11-4: Transformations in the Plane	1. Reflection, rotation, and translation F2E 2. Reflections: find the coordinates SVY 3. Rotations: find the coordinates ZX5 4. Translations: find the coordinates F8U
Lesson 11-5: Three-Dimensional Figures	1. Parts of three-dimensional figures VW9 2. Three-dimensional figure vocabulary NKH
Lesson 11-6: Two-Dimensional Representations of Three-Dimensional Figures	1. Front, side, and top views of irregular figures 7VV 2. Nets of three-dimensional figures 6BF
Lesson 11-7: Precision and Accuracy	1. Precision M5E 2. Minimum and maximum area and volume VX7
Lesson 11-8: Representing Measurements	
Checkpoint opportunity	1. Checkpoint: Definitions of geometric objects 2JF 2. Checkpoint: Area and perimeter in the coordinate plane 9VT

© 2026 IXL Learning. Visit IXL.com today!

Module 12

Logical Arguments and Line Relationships

Textbook section	IXL skills
Lesson 12-1: Conjectures and Counterexamples	1. Number sequences PL9 2. Counterexamples 2GJ *Also consider* • Shape patterns JJA
Lesson 12-2: Statements, Conditionals, and Biconditionals	1. Identify hypotheses and conclusions 7FW 2. Converses, inverses, and contrapositives N5P 3. Biconditionals Q6E 4. Truth values JUU *Also consider* • Conditionals VU9 • Negations VBY • Truth tables 6FJ
Lesson 12-3: Deductive Reasoning	
Lesson 12-4: Writing Proofs	1. Solve linear equations: complete the solution 9W4
Lesson 12-5: Proving Segment Relationships	
Lesson 12-6: Proving Angle Relationships	1. Proofs involving angles HV9
Lesson 12-7: Parallel Lines and Transversals	1. Transversals: name angle pairs V85 2. Transversals of parallel lines: find angle measures WB9 3. Transversals of parallel lines: solve for x RSV *Also consider* • Identify parallel, intersecting, and skew lines and planes QZD • Transversals of parallel lines: prove angle relationships 6QF

Visit IXL's interactive skill plan at www.ixl.com/math/skill-plans/reveal-math-2020-integrated-i

© 2026 IXL Learning. Visit IXL.com today!

Lesson 12-8: Slope and Equations of Lines	1. Slopes of parallel and perpendicular lines 6K2 2. Equations of parallel and perpendicular lines VEB
Lesson 12-9: Proving Lines Parallel	1. Transversals: prove lines are parallel WFL *Also consider* • Construct parallel lines 6EB
Lesson 12-10: Perpendiculars and Distance	1. Find the distance between a point and a line GWC 2. Find the distance between two parallel lines A7B
Checkpoint opportunity	1. Checkpoint: Parallel and perpendicular lines PMD

© 2026 IXL Learning. Visit IXL.com today!

Module 13

Transformations and Symmetry

Textbook section	IXL skills
Lesson 13-1: Reflections	1. Reflections: graph the image SM9
Lesson 13-2: Translations	1. Translations: graph the image 7AC 2. Translations: write the rule 9PR
Lesson 13-3: Rotations	1. Rotations: graph the image 6SD 2. Reflections and rotations: write the rule DMC *Also consider* • Rotate polygons about a point XM7
Lesson 13-4: Compositions of Transformations	1. Glide reflections: graph the image KSS 2. Sequences of congruence transformations: graph the image WHW 3. Determine if two figures are congruent: justify your answer DQB *Also consider* • Sequences of congruence transformations: find the rules GFH
Lesson 13-5: Tessellations	1. Congruence transformations: mixed review XQ7
Lesson 13-6: Symmetry	1. Count lines of symmetry M7U 2. Rotational symmetry ERP 3. Transformations that carry a polygon onto itself RJW *Also consider* • Line symmetry WBX • Draw lines of symmetry JU7
Checkpoint opportunity	1. Checkpoint: Transformations in the plane KQ6 2. Checkpoint: Congruence transformations D5L

Module 14

Triangles and Congruence

Textbook section	IXL skills
Lesson 14-1: Angles of Triangles	1. Triangle Angle-Sum Theorem UBU 2. Exterior Angle Theorem TGK 3. Proofs involving triangles I G78
Lesson 14-2: Congruent Triangles	1. Congruence statements and corresponding parts CYL 2. Identify congruent figures HU9 3. Solve problems involving corresponding parts WYB *Also consider* • Prove triangles are congruent using rigid motions XAQ
Lesson 14-3: Proving Triangles Congruent: SSS, SAS	1. SSS and SAS Theorems 48Q 2. Proving triangles congruent by SSS and SAS VVZ 3. SSS Theorem in the coordinate plane C5G
Lesson 14-4: Proving Triangles Congruent: ASA, AAS	1. ASA and AAS Theorems N94 2. Proving triangles congruent by ASA and AAS 23Z *Also consider* • SSS, SAS, ASA, and AAS Theorems LER • Proving triangles congruent by SSS, SAS, ASA, and AAS SZL • Proofs involving corresponding parts of congruent triangles AKL
Lesson 14-5: Proving Right Triangles Congruent	1. Hypotenuse-Leg Theorem VQJ
Lesson 14-6: Isosceles and Equilateral Triangles	1. Congruency in isosceles and equilateral triangles HPR 2. Proofs involving isosceles triangles V45

© 2026 IXL Learning. Visit IXL.com today!

Lesson 14-7: Triangles and Coordinate Proof	1. Classify triangles on the coordinate plane: justify your answer 5TN
Checkpoint opportunity	**Modules 13-14** 1. Checkpoint: Rigid motion and congruence H9L

© 2026 IXL Learning. Visit IXL.com today!
